

Concord, May 1. 1876.

Dear Mr. Garrison,

18 Mr Emerson has no
objection to sitting for his
photograph - but says that he
is not a good subject, and
each portrait looks to him
like a caricature -

I also think he never "takes
well."

There are however better
photographs of him than Foss's -
- there is one at Notman's -

Mr Emerson will call at Mr Warren's room
the next time he goes to Boston - He bids me
send you his kind regards.

a very good one (for him) at
Black's - and another at Hawes's.

I include for you one of
Black's - (taken ten or fifteen
years ago however). It is
the only one that I like at all.

Permit me to say, that your
letter I shall keep as a possession
valuable - and increasing in value
as the years - and ages - go by.

I shall leave it to my children
as the Autograph of a man
without whose heroic labours
and sacrifices we could not
now rejoice in

'A Nation saved, a Race delivered!'

Ever gratefully yours

Lidian Emerson
